EYE SAFETY WARNINGS

Avoid staring/facing directly into the projector beam at all times. Keep your back to the beam as much as possible.

A stick or laser pointer is recommended to avoid the need for the user to enter the beam.

When projector is used in a classroom, adequately supervise students when they are asked to point out something on the screen.

In order to minimize power, use room blinds to reduce ambient light levels.

REGULATION & SAFETY NOTICES

This appendix lists the general notices of your Projector.

FCC notice
This device has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This device generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the device and receiver.
- Connect the device into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/television technician for help.

IMPORTANT SAFETY INSTRUCTION

1. Do not block any ventilation openings. To ensure reliable operation of the projector and to protect from over heating, it is recommended to install the projector in a location that does not block ventilation. As an example, do not place the projector on a crowded coffee table, sofa, bed, etc. Do not put the projector in an enclosure such as a book case or a cabinet that restricts air flow.

2. Do not use the projector near water or moisture. To reduce the risk of fire and/or electric shock, do not expose the projector to rain or moisture.

3. Do not install near heat sources such as radiators, heaters, stoves or any other apparatus such as amplifiers that emits heat.

4. Do not use the projector in direct sunlight.

5. Do not use near any appliance generating a strong magnetic field.

6. Do not use the projector in areas susceptible to excessive dust and dirt.

7. Turn off the product before cleaning.

8. Turn off the product before removing the battery.

9. Do not replace the battery if the product is not being used for a long period of time.

10. Ensure that the ambient room temperature is within 5-35°C. Relative humidity is 5 - 35°C, 80% (Max.), non-condensing.

11. Do not expose the battery to temperatures above +60°C (+140°F)

12. Do not use the projector to temperatures above +60°C (+140°F)

13. New or idle batteries can have short-term reduced capacity. Fully charge the battery before initial use.

14. Do not put the battery into your mouth.

15. Do not let the battery contacts touch another metal object.

16. Do not drop, throw or try to bend your product.

17. May explode if disposed of in fire.

18. Clean only with dry cloth.

19. Only use attachments/accessories specified by the manufacturer.

20. Do not use the unit if it has been physically damaged or abused. Physical damage/abuse would be (but not limited to):

- Unit has been dropped.
- Charger or plug has been damaged.
- Liquid has been spilled on to the projector.
- Projector has been exposed to rain or moisture.

21. Do not attempt to service the unit yourself. Opening or removing covers may expose you to dangerous voltages or other hazards. Please contact your local reseller or service center before you send the unit for repair.

22. See projector enclosure for safety related markings.

23. The unit should only be repaired by appropriate service personnel.

24. Do not touch the projector for a long time while the projector is used.

25. CAUTION: Risk of Explosion if Battery is replaced by an Incorrect Type.

26. Dispose of Used Batteries According to the Instructions.

DISPOSAL OF OLD ELECTRICAL & ELECTRONIC EQUIPMENT

(Applicable throughout the European Union and other European countries with separate collection programs)

This symbol found on your product or on its packaging, indicates that this product should not be treated as household waste when you wish to dispose of it. Instead, it should be handed over to an applicable collection point for the recycling of electrical and electronic equipment. By ensuring this product is disposed of correctly, you will help prevent potential negative consequences to the environment and human health, which could otherwise be caused by inappropriate disposal of this product. The recycling of materials will help to conserve natural resources.
PRODUCT OVERVIEW

1. Focus Dial
2. VGA/Component Input Connector
3. Mini HDMI Connector
4. Battery Indicator
5. Menu / Esc Button
6. Through-hole for straps
7. Enter Button
8. Power Button
9. Auto Search Source Button
10. Navigation / Volume Button (up/down/left/right)
11. Speaker
12. Audio Out Connector
13. AV Input Connector
14. MicroSD Card Slot
15. Micro USB port
16. Lens
17. DC Input
18. IR Receiver
19. Screw Hole for Tripod Convertor
20. Battery Cover

PACKAGE OVERVIEW

Installing the Battery

1. Remove the battery cover. (①〜③)
2. Insert the battery with the electrical contact facing downward and away from the lens. (④)
3. Ensure that the battery pull tab extends from under the battery. (⑤)
4. Slide the battery cover back into place over the battery pull tab. (⑥〜⑦)

Standard Accessory
1. Power adaptor with AC Plug
2. VGA Cable
3. USB Male Cable
4. Battery
5. AV Cable
6. Mini HDMI Cable
7. Remote Control
8. iPod Connection Kit
   a. USB Cable for iPod Connector
   b. iPod Cable
   c. iPod Connector
9. Component Cable
10. Female USB Cable
11. USB to DC jack cable

Optional Accessory
12. Audio Out Connector
13. AV Input Connector
14. MicroSD Card Slot
15. Micro USB port
16. Lens
17. DC Input
18. IR Receiver
19. Screw Hole for Tripod Convertor
20. Battery Cover

The standard accessories may vary in each region due to different applications.
1. **Charging the Battery**

1. Remove protection cap and insert the plug. (1~2)
2. Connect the charger. (3~4)
3. During charging the LED indicator lights red. (5)  
   ! **Projector will not charge while operating.**
4. The LED Charge Indicator will go off when battery is fully charged. This process may take up to 2.5 hours

**<Note>**
1. For more LED indicator, see page 7.
2. After the projector is turned off, the battery may not start charging right away due to over temperature protection.

**<Optional>**
The PK201 can also be charged via USB to DC cable (6)

2. **Connect Input Source - (Video in)**

1. Connect the AV input source. (1~2)
2. After powering on projector, press "Auto Search Source Button" to change sources.
3. Connect external speakers to the audio out connector of the projector. (3)

**<Note>**
1. All other brand and product names are trademarks or registered trademarks of their respective companies.
2. The connecting cable of video output device is not supplied, please contact their service center.
3. iPod nano/iPod touch/iPhone/iPod classic (version 5 and above)
4. Designed for iPod/iPhone/Mobile phone/ PMP with TV out functions. Using with device with audio signal voltage > 0.3Vrms is not recommended.

3. **Connect Input Source - (VGA/USB/HDMI/Component in)**

1. Connect the VGA/Component source device with the Universal I/O connector. (1~2)
2. After powering on projector, press "Auto Search Source Button" to change sources.
   ! **Insert universal connector with arrow mark facing up.**

**<Note>**
1. USB device: Support USB Flash Drive up to 5V/150mA, but does not support USB Hard Disk Drive
2. Female USB cable, Component cable, and HDMI cable are optional accessories.

4. **Connect Input Source Data Transfer**

1. Connect laptop or PC for data transfer to the Projector internal memory or additional MicroSD memory using the supplied Male USB Cable. When connected, switch the Projector on.

**<Note>**
The laptop/PC can only detect the input source when the Projector is switched on. The projection will stop when this connection is made.

5. **Insert MicroSD Card**

1. Insert a MicroSD card into the slot with the gold contacts facing down.
SWITCH ON

1. Press the Power button.

USING A TRIPOD STAND

1. Screw a standard tripod into the screw hole on the projector.

ADJUSTING THE PROJECTED IMAGE

1. Adjust Focus (○) until image is clear.

DOWNLOADING THE PC SOFTWARE

Use the PC software to encode and transfer all file types to the Projector.

To install the PC software:
1. Connect the Projector for data transfer (see previous item).
2. Browse the Projector internal memory (like a USB memory stick) for a folder called "PC Software".
3. In this folder, double-click on the file called "Setup" or "setup.exe" to begin the installation process, then follow the on screen instructions.
4. After the installation, the "Arcsoft Media Convertor" application is launched.
5. To convert and transfer files to the Projector, drag and drop files to the Arcsoft Media Convertor application window.

THIS PRODUCT IS LICENSED UNDER THE MPEG-4 VISUAL PATENT PORTFOLIO LICENSE FOR THE PERSONAL AND NON-COMMERCIAL USE OF A CONSUMER FOR (i) ENCODING VIDEO IN COMPLIANCE WITH THE MPEG-4 VISUAL STANDARD ("MPEG-4 VIDEO") AND/OR (ii) DECODING MPEG-4 VIDEO THAT WAS ENCODED BY A CONSUMER ENGAGED IN A PERSONAL AND NONCOMMERCIAL ACTIVITY AND/OR WAS OBTAINED FROM A VIDEO PROVIDER LICENSED BY MPEG LA TO PROVIDE MPEG-4 VIDEO. NO LICENSE IS GRANTED OR SHALL BE IMPLIED FOR ANY OTHER USE. ADDITIONAL INFORMATION INCLUDING THAT RELATING TO PROMOTIONAL, INTERNAL AND COMMERCIAL USES AND LICENSING MAY BE OBTAINED FROM MPEG LA, LLC. SEE HTTP://WWW.MPEGLA.COM.
How to Use the Menu - Source: Internal Memory, Micro SD Card, and USB Flash Drive

Playing Videos from the Internal Memory / Micro SD Card / USB Flash Drive

Displaying Photos from the Internal Memory / Micro SD Card / USB Flash Drive

Presentation from the Internal Memory / Micro SD Card / USB Flash Drive

Navigating the Settings Menu

System Setup
- Language: Select preferred language for on-screen menus.
- LED Mode: Select LED mode (Bright, STD).
- Projection: Select the projection mode (Front Desktop, Rear Desktop, Front Inverted, Rear Inverted).
- Version: Displays firmware version.

Photo Setup
- Slideshow Duration: Select duration of slideshow (Off, 2 sec., 5 sec., 10 sec.).
- Slideshow Repeat: Enable slideshow repeat (Off, Repeat All).

Video Setup
- Play Mode: Select play mode (Off, Repeat All, Single).

Finance Department
If you experience a problem with your projector, please refer to the following information. If a problem persists, please contact your local reseller or service center.

**Image Problems**

- No image appears on-screen
  - Ensure the cables/charger/battery are correctly and securely connected.
  - Ensure the pins of connectors are not crooked or broken.
  - Make sure the projector is switched on.

- Image is out of focus
  - Adjust the Focus Dial.
  - Make sure the projection screen is between the required distance 9.6 to 126.6 inches (0.245 to 3.215 meters) from the projector. See page 5.

- Image is reversed
  - Select “Source --> Settings --> System Setup --> Projection” from the OSD and adjust the projection direction.

**Audio Problems**

- No sound
  - Press the VOLUME + button. (See page 3.)

**Battery Problems**

- Battery capacity is low
  - Remove the battery and clean the connectors.
  - The battery is worn out and needs to be replaced. See page 3.
  - The battery may not charge right after the projector is turned off due to the high temperature emitted by the projector.

**LED Indicator**

- Off / Green / Red

**Message Reminders**

- Out of the range
- High battery consumption
  Please charge the battery. (See page 3)

**Compatibility Mode**
