-------------------------------	---

No image	1, Please remove the len cap at first 2, Projector turned off. 3, Selected the wrong input signal. 4, the mainboard are broken . Please Replace this mainboard.
-----------------	--

About the installation

- In order to improve the projector service life, It shouldnot place in a wet and ventilation condition.
 - Donot put the projector under the sunshine directly.
 - Projector working temperature: $0^{\circ}\text{C}\sim+70^{\circ}\text{C}$ 。
Projector store temperature : $-20^{\circ}\text{C}\sim+70^{\circ}\text{C}$ 。
 - Donot block the ventilation-window of projector
If the projector interior temperature are too hot , the machine will be shut off automatically.This is hot - protected system.
So please clean the filter of projector per month . It is very important.
Donot let the dust cover the filter.
- About Open and close the projector
- when open the projector ,connect the power cable and press the "power" key on the panel .the projector will work ,but the lamp will be bright more and more .After 5 minutes, the lamp work normally
 - when close the projector , press the power key again . And then the lamp shut off. But the fans still work until 5minutes later . When close the projector ,donot pull out the power cable directly . After 5minutes the projector will shut off automatically.

Warning:

Fans will adjust the temperature , It is controlled by system 。 when the projector work, the fans turn slowly or quickly, so the fans noise are different。 But it is normal。
when the projector work ,donot pull out the pwer cable。 If the fans stop to work,it will cause the projector interior temperature very high, so it may damage the projector.

PROJECTOR INSTALLATION

Please use the setup instruction below:

In order to get good image quality ,donot let the sunlight shine the screen directly .If you use the projector in the day time,

2.Take away the panel like the picture 2.

2

3, Use a small screwdriver to push out the lamp as the picture 3

3

- ★ Before replacing the lamp, make sure the lamp are cold.
- ★ Before open the lamp cover board, pull out the power cable
- ★ When replacing the lamp, donot drop some dirty goods inside the projector.

Replace the projector lamp

Our projector lamp warranty 6 months. In different use environment, after 6000hours, the lamp brightness will reduce, the image will become dark .Therefore, please replace the lamp according to the following steps .

1, use the tool to remove the screw,like the picture 1 show

1

Standard setting (Front projection)

Please refer to the following sheet , adjust your picture size and distance (from the lens to screen)

Taille D'écran	4:3	16:9
50"	1.9m	2.0m
72"	2.5m	2.7m
100"	3.37m	3.8m

The data maybe have 3% error,due to the image size according to the distance between projector and screen . if the distance is less 2m or over 5m,the image maybe not clear.

warning:
