

# Pico Genie P100

Ultra Portable HDMI LED Pocket Projector

## Great Performance & Great Design

## Ideal For iPad/ Tablets, Laptops, Smartphones & More...

### Key Features

85 lumens of brightness on battery and mains power

Mirror everything on your device's screen.

Use with almost any Smartphone / tablet / iPad\*

Tiny size (9.95cm x 9.9cm x 2.25cm)

Power your phone while you project

### User Benefits

Designed for extended use on battery power, meaning uniquely no loss of brightness on battery or the mains

Connect to your laptop, smartphone, tablet, games console and more to mirror the device's screen up to a massive 80" projected screen size.

Connect to Android or Windows via MHL adapter or to Apple with a cable from Apple

The P100 is smaller than a CD case. Slip it into your pocket, laptop case, or handbag and project on-the-go, wherever you are!

The built-in emergency charger means you can charge your phone via the USB port whilst projecting

The Pico Genie P100 Pico projector has several unique features making it really stand out from all others:

The Pico Genie P100 is the first ultra-compact LED projector with 85 lumens of brightness both on battery and mains power so unlike many competitor products you never have to sacrifice brightness or image quality. Offering a 1000:1 contrast ratio it fits into the palm of your hand weighing not much more than a mobile phone.

The P100 is one of the first projectors to connect & mirror almost all Smartphone screens, including Android, Windows, iPhone and mirrors your iPad, tablet, laptop and other HDMI devices\*.

Uniquely charge your phone while projecting so your Smartphone's battery will not deplete when projecting battery-consuming video content.

Use it as an Emergency Power Supply and charge your Smartphone via its USB port ensuring you've always got power on the go for 2 hours!

Overall, the Pico Genie P100 is one of the best designed portable HDMI projectors capable of powering, connecting and mirroring an array of HDMI devices at the highest brightness on battery and is a "must buy" for anyone wanting great quality at a great price.

\* (additional Apple Digital AV mirroring cable or MHL adapter may be required)

## Reviews / Quotes

**Gadgets Boy** - Online gadget expert, Gadgets Boy notes "Extremely good performance for such a small HDMI projector" and recognises that the exceptional "Battery life and 85Lumens of brightness is a great bonus that the manufacturer can boast about"

**Richard Hirstwood's video review** - Richard Hirstwood— An education expert for 27+ years says "I really like this projector and I really like its simplicity. For 85 lumens I'm impressed that it is pretty bright. I got well over an hour on the battery. It works well with Apple TV, iPads and more. This is the one for you".
