Continuous Operation:
The cool-running XJ-A257 Slim Line projector has the ability to run all day, every day in extended-use applications* including digital signage, museum displays and other challenging environments. Run the XJ-A257 worry-free, knowing you will not shorten its expected life or damage the projector’s bright, high-impact images. (Projectors must be reset once a day when operated in continuous operation applications).

* Extended Use Applications are defined as operation of 10 hours per day for 5 or more days per week. Under these conditions the light source warranty is one (1) year or 6000 hours.

Low Carbon Footprint:
Eco Mode can save as much as 50%, and we link it to an ambient light sensor, producing great images by automatically adjusting the projector brightness to the brightness of the room.

Warranty Information:
3 year warranty on the projector and 3 years (or 6,000-hour usage) on the light source.
