

# Signature Series

*Automatic closure in sizes through 16' wide.*

The SIGNATURE SERIES offers the clean appearance of a ceiling-recessed screen in virtually any size, with any viewing surface. Ideal for boardrooms and meeting rooms. SIGNATURE'S independently motorized aluminum ceiling closure disappears *into* the case when the screen is lowered, for a perfectly unobstructed view. Hinges are completely concealed, and the closure is supported for its entire length—no sag is possible. These exclusive features mean that the SIGNATURE SERIES is the best-concealed projection screen you've ever seen. Screen can be operated from any remote position.

**Signature/Series V**—Features DRAPER'S TAB TENSIONING SYSTEM for a perfectly flat projection surface. Choose M1300, M2500, HiDEF GREY or CINEFLEX rear projection viewing surface. See page 14 for more on the benefits of TAB TENSIONING.

**Signature/Series E**—Your choice of a conventional viewing surface: fiberglass matt white, glass beaded, PANAMAX or acoustically transparent AT1200.

### System Options

- **Extra Drop, Series V**—Up to 14' overall height, either white or black (white is standard). \*Extra drop will increase case and dowel length. Consult DRAPER if this dimension is critical.
- **Extra Drop, Series E**—Up to 16' overall height, either white or black (white is standard for SERIES E in AV format; black for all other formats).
- **Black Masking Borders**—Borders are optional for SERIES E in AV format. Borders are standard for SERIES E in all other formats and for all SERIES V screens.
- **Control Options**—Refer to page 5. Controls may be built into case and will increase the overall length of the case.

*The Marten House—Hotel and Lilly Conference Center, Indianapolis, IN. Dealer: Electrical Systems Co.*
