<b>Speaker system</b>	1, 5w	2, 10w each, stereo	2, 5w each, stereo	1, 10w	1, 16w	1, 10W
<b>Loud enough for</b>	Small room	Small room	Mid to large-size room	Small to not quite mid-size room	Large room or small auditorium	Only marginally useful even in a small conference room
<b>Comments</b>	Reasonably good quality, but low volume.	Reasonably good quality, but low volume.	Significant bottom of the barrel echo effect.	Roughly a match for the Dell S500wi, with better sound quality, but lower volume.	Good quality paired with sufficient volume.	Good sound quality, but volume too low to be useful.
