Aspect Ratio: 16: 9  
Contrast Ratio: 1000 :1  
Projection Time: up to 2 hrs on a single charge  
Projection Screen Size- 10'' - 200''

### Features

- This product supports HDMI signal inputs only, other forms of video signals will not play until converted into HDMI format.
- This product supports the included DC 12V power supply adapter. To save battery life in the projector, it is recommended to plug in while projecting, however without power supply the iPower Sight will provide a projection time of up to 2 hours.
- There is a standard USB port for charging out external 5V devices such as a cell phone.
- The center touch key provides optional viewing modes from "presentation" to "standard".

### Charging Instructions:

- Connect the AC adapter from projector to AC/DC wall outlet.
- The LED indicator will illuminate red when the iPower Sight is charging.
- When the LED is green, the iPower Sight is fully charged.
- When the battery icon shows low battery, you must connect the power source.
- If you turn on the iPower Sight and it doesn't seem to turn on or you don't see the projection screen come up, it is too low on power to operate and you must connect the power source.
- To charge out external devices, connect the USB port to your device.

### LED lights Indication

- Red light flashing = iPower Sight is charging
- Green light solid or flashing = Charging complete
- The iPower Sight will shut off automatically when the battery runs out and when the unit is not plugged in.

### Adjustments

**Focus:** When in video mode, you can adjust the focus wheel to achieve better video quality and resolution. For audio, you can adjust the volume by scrolling the volume wheel on the top.

**Volume:** Slide your finger clockwise or counter-clockwise on the volume control sensor on the top of the iPower Sight to increase/decrease volume level.

### Videos & Slideshows

#### Video Play, Picture Slideshows, & Powerpoints

1. Connect the projector and the device
2. Turn on the projector.
3. Select video files to display on the device then press PLAY.  
(FOR MAC computers) You may have to adjust "displays" under your computer settings and select the side by side screen option. Then in the video program select "view"-> "enter full screen" and drag the movie to the projector screen to the left or right whichever you set as the secondary display.

#### Picture Slideshows

1. Connect the projector and the device.
2. Turn on the projector.
3. Select picture file to display on device, then press "Browse" or play.

#### Powerpoints/ slideshows

1. Connect the projector to device
- 2.. Turn on projector
3. Select powerpoint slideshow to display, open and press play. Once you press play the video will show up on the screen.

### Warning

**Read all instructions and warnings prior to using this product. Failure to do so could result in fire, explosion, electrical shock, or other hazard causing serious and/or fatal injury, and or product damage.**

1. Do not modify, disassemble, open, drop, crush, puncture, force, or shred the product.
2. Do not expose product to rain or water.
3. Keep away from open flame
4. Keep away from high voltage devices.
5. This product is not a toy, keep away from children. Ensure that all persons who use this product read all instructions and warnings.
6. Only use the adapter with outlet voltage of 4.75V-5.25V or computer USB port to charge the product.
7. Do not force the plug in charging ports. Doing so may cause permanent damage to the ports, device, or cable.
8. Do not wash with harsh soaps, detergents, or chemicals.
9. Over an extended period of non usage, the iPower will begin to discharge less than 5% overtime. Charge at least once every three months when not in use.
10. Misuse of this product may result in damages that are not covered in the one year limited warranty.
11. Please see the One Year Limited Warranty on the back of this manual for further information.
12. All parts of this product including its accessories are limited to the use of the product.
13. The developer and manufacturer of this product have the right of interpretation, determination, and revision of any and all of the above.
