Key Features

- 3LCD Laser Projector
- WXGA 1280 x 800
- 5,000 ANSI Lumens Brightness
- 500,000 : 1 Contrast Ratio
- 50,000 Hours Light Source Life (Long life 2 mode)
- HDMI 2 Inputs (1 shared with MHL)
- Perfect Fit 2
- High Dynamic Range (HDCR2)
- 360° Installation

Hitachi expands solid state projector line with a 5,000 ANSI lumens, 3-chip LCD model delivering larger-than-life performance.

Hitachi’s solid state light source projector line now includes the laser light source 3LCD model LP-EW5002 with 5,000 ANSI lumens. The new laser phosphor light source offers approximately 20,000 hours (normal mode) of operation time and is virtually maintenance free, there is no lamp to replace providing a dramatic reduction in total cost of ownership. It can provide 24/7 use for digital signage applications and is a perfect choice for auditoriums, lecture halls, large classrooms, conference rooms and museums. Plus, 5,000 ANSI lumens brightness and 500,000 : 1 contrast ratio results in super bright display with outstanding image clarity and uniformity. Additionally a suite of advanced features includes High Dynamic Contrast Range (HDCR2), 2 HDMI ports, and Hitachi’s original technology Accentualizer. As with all Hitachi projectors, you can expect vibrant image quality, cost-efficient operation, and long-lasting reliability. For added piece of mind, Hitachi’s LP-EW5002 is also backed by a generous 3 year warranty and our world-class service and support programs.
**LP-EW5002 LCD Laser Projector**

**Long Life 20,000 Hours Laser Light Source**
Light source combines blue laser diodes and phosphor which can achieve over 5,000 lumens. The projection image is bright and clear, with vivid colors. Since lamp replacement is unnecessary, maintenance cost is reduced and by not using mercury lamps, the projectors are eco-friendly.

Plus, Hitachi's unique cooling system can achieve a low noise level of 34 dB. The life of the light source is approximately 20,000 hours at normal mode but by using other modes which reduce the brightness or operation period, its life can be extended up to 50,000 hours. These mode settings can be used for different purposes depending on the application of the projector.

**UNIQUE FEATURES**

- **Accentualizer**
  Hitachi original technology makes pictures look more real by enhancing sharpness, gloss and shade to make pictures as clear as pictures on a flat-panel device. You can also adjust the effects by three levels according to your surroundings so that the colors of projected images are the actual colors of the objects they represent.

- **Aspect Zoom**
  Aspect Zoom makes the maximum image size on the screen while keeping the aspect of the image.

- **HDCR2 (High Dynamic Contrast Range)**
  When average projectors are used in bright rooms, the darker colors of an image deteriorate and images become unclear. Using this function, blurred images caused by room lighting or outside light sources are corrected, and an effect similar to increasing contrast occurs. The recent enhancement to HDCR2 achieves not only auto tone enhancement but also auto color enhancement. This results in clear and vivid images even in bright rooms.

- **Cloning Function**
  Copy setting data from one projector to others of the same model via USB memory. Cloning not only saves almost all PJ settings such as gamma and keystone via USB memory, it saves countless hours in setup and installation.

- **MHL™**
  MHL (Mobile High-Definition) allows users to mirror their phone/tablet screen with the projector display. It is compatible with any and all apps.

- **Perfect Fit 2**
  Enables the user to adjust individual corners and sides independent of one another. Perfect Fit 2 provides vertical and horizontal digital correction of either barrel or pin cushion distortions. This feature helps correct geometric and complicated distortions. Perfect Fit 2 allows the projected image to fit correctly to the screen quickly and easily.

**Projector Quick Connection App For Mobile Devices**
Our iOS and Android applications offers projector control and also provides the capability to display photos, document files and web site contents. Available for iPad®, iPhone® and Android devices. Works over your LAN via your RJ-45 port or via an optional USB/WL5G wireless adapter.

**STANDARD FEATURES**

- **Input Source Naming**
  Users can name input sources in simple language instead of factory default names.

- **Network Control, Maintenance and Security**
  Embedded networking gives you the ability to manage and control multiple projectors over your LAN. Features include scheduling of events, centralized reporting, image transfer and e-mail alerts for reactive and routine maintenance.

- **PC-Less Presentation**
  By using a USB memory stick or other storage device, you can use the projector without a computer. Menus are easy to see with a thumbnail display. Additionally there is also a slideshow and video function.

- **PIN Lock / MyScreen / MyText**
  PIN lock protection can limit projector users. MyScreen PIN lock keeps captured images on the startup screen. Users can set any name logo to MyScreen, clearly identifying ownership. MyText provides the ability to write text on the startup screen such as model name, serial number or location.

- **DICOM® Simulation Mode**
  Images in DICOM (Digital Imaging and Communications in Medicine) Mode are reproduced with an advanced grayscale level. This mode is ideal for viewing grayscale medical images such as X-rays, and for training and educational purposes. These projectors are not approved medical devices. They should not be used for actual medical diagnosis.

- **Wireless Presentation Compatible**
  Connect the projector to a computer or your network using the optional USB wireless adapter (part number USBWL5G). The adapter supports IEEE802.11 a/b/g/n/ac.

- **360º Rotation/Portrait Projection**
  Display rotation of 360º and portrait projection for creative applications and greater installation flexibility.

Enhance the experience with Hitachi’s LP-EW5002.

The LP-EW5002 LCD Laser projector from Hitachi is specifically designed to enhance the visual experience — from the audience to presenters. Vivid colors. Bold graphics. Crisp text. The LP-EW5002 does it all in environments of all sizes. With 5,000 ANSI lumens of brightness and WXGA 1280 x 800 resolution, the LP-EW5002 provides the perfect compatible solution.

It also features a high contrast ratio, long life, cloning function enabling you to copy settings data from one projector to others of the same model, and is wireless presentation ready. Plus, embedded networking gives you the ability to manage and control multiple projectors over your LAN (scheduling of events, centralized reporting, image transfer, and email alerts). Best of all, the high performance LP-EW5002 is exceptionally reliable and offers a very low cost of ownership.

**Expected Light Source Life***
Approx. 20,000 hours (Normal), 30,000 hours (Long life 1), 50,000 hours (Long life 2)

**Expected Filter Life**
Approx. 20,000 hours

**Speaker Output**
16W

**Keystone**
H and V +/- 30º

**Compatibility**

Computer
VGA/SVGA/XGA/WXGA/SXGA/WXGA+/WXGA++/WSXGA+/HD/UXGA/Mac 16

H-Sync
15 kHz - 106 kHz

V-Sync
50 Hz - 120 Hz

Composite Video
NTSC, NTSC4.43, PAL, PAL-M, -N, SECAM

Component Video
480i, 480p, 576p, 720p, 1080i, 1080p

HDMI
480i, 480p, 576p, 720p, 1080i, 1080p

Computer signal TMDS clock 25 MHz - 162 MHz

MHL
480i, 480p, 576p, 720p, 1080i, 1080p

Computer signal TMDS clock 25 MHz - 75 MHz

**Connectors**

Digital Input
HDMI x 1, HDMI/MHL x 1 (HDCP compliant)

Computer Input 1
15-pin mini D-sub x 1

Computer Input 2
15-pin mini D-sub x 1

Computer Monitor Output
15-pin mini D-sub x 1 (shared with Computer In 2)

Video Input

Composite Video
RCA jack x 1

Component Video
15-pin mini D-sub x 2 (shared with computer in 1/2)

Audio Input
3.5 mm stereo mini jack x 2, RCA jack (L/R) x 1

Audio Output
3.5 mm stereo mini jack x 1

Network LAN Wired
RJ-45 port (10 base-T / 100 base-TX)

Network LAN Wireless
USB-A, IEEE802.11 a/b/g/n/ac - optional wireless adapter required

USB
Type A x 2 (PC less Presentation or wireless network)

Type B x 1 (USB display or USB mouse control)

Control Terminals
9-pin D-sub x 1 (RS-232 control)

**Power Supply**
AC100-120V / AC220-240V, 50/60Hz

**Power Consumption**
380W/350W

**Operating Temperature**
32° - 104° (0°C - 40°C) under 5,250 ft.
32° - 95° (0°C - 35°C) 5,250 ft. - 10,000 ft.

**Dimensions (W x D x H)**
19.9" x 16.7" x 5.3"  (excluding protrusions)

**Weight**
Approximately 16.8 lbs.

**Approvals**
UL 60950-1 / cUL, FCC part 15 subpart B Class B

**Warranty**
3 year limited parts and labor

5 years or 20,000 hours light source
