

## DESCRIPTION

Transform any room into your movie theater with the Miroir M700S Wireless 1080p Projector! With SYNQ TV technology, you can easily project a stunning 120-inch screen that will immerse you in your favorite movies, TV shows, and more. With just a few clicks, the built-in streaming capabilities allow you to access all your favorite streaming services like Netflix, Hulu, and more. Whether you're hosting an outdoor movie night with friends and family or giving a presentation at school, the Miroir M700S has covered you. Don't settle for a small screen; upgrade to the ultimate cinema experience today! Two-Year Parts and Labor warranty, plus advance replacement exchange.

## Features

Automatic Focus, 4-point keystone, and digital zoom are supported for optimal viewing capabilities. Use the included remote control to fine-tune the picture to your room or outdoor theater. Effortless Color Adjustments - Choose from Four Convenient Color Modes to Enhance Your Projected Content: Movie, Gaming, Vivid, Soft, and others. You can also customize it to your personal preference.

## LED Lamp

This projector is engineered for longevity, offering an impressive lifespan of up to 20,000 hours in Normal Mode and a staggering 30,000 hours in ECO Mode. This means you can enjoy your favorite movies, presentations, and games for years without worrying about costly replacements.

## Built-in Speaker

A built-in 3-watt speaker for audio. A 3.5mm audio out jack allows you to connect external speakers for an even more immersive experience. Bluetooth speaker mode is supported as well.

## Connectivity

RJ45 and HDMI connectivity for all your digital connections. Game mode support with less than 50ms response time. USB Type-A port for playing content or sharing PowerPoint presentations.
