

# EzPro 737: The Ultimate Road Warrior Power Tool

When you have an important message to deliver, be sure you have the right tool for the job: the Optoma EzPro 737. Don't let its compact size and ultralight weight fool you. It's packed with high-performance features, including:

- Texas Instruments Double Data Rate (DDR) DLP™ chip for industry-leading brightness, contrast, and color accuracy
- 1500 lumens brightness and 1500:1 contrast ratio (typical)
- Ultralight 3.5 pound weight
- Native 1024 x 768 XGA resolution with full DVD and HDTV compatibility, including 1080i, 720p, 480p, and 480i
- Silicon Image video processor with PureProgressive® technology for unequalled video reproduction, on the road or even at home
- Magnesium alloy case for enhanced durability and outstanding heat dissipation
- Wireless remote with laserpointer and dual IR receivers
- Superior reliability backed by Optoma's three-year warranty
