mp3135 • mp3135W

Project a professional image with this wireless-capable, microportable digital projector from HP.

## Portable partners

- **Experience flexibility, enhanced quality, and boundless mobility.** The HP mp3135 digital projector series offers wireless connectivity as well as storage capability with CompactFlash or USB Flash memory.<sup>1</sup>
- **Deliver professional presentations that are light, bright, and just right.** Experience industry-leading brightness with 1800 ANSI (max.) lumens.<sup>2</sup> The HP mp3135 digital projector series has a razor-sharp contrast ratio of 2000:1 for clarity you'll have to see to believe.
- **Dazzle your audience with colors that jump off the screen.** DLP™ technology leads the pack when it comes to quality and consistency on the screen. This proven digital technology provides crisp, grain-free images and consistent color year after year with no fading or loss of color fidelity.
- **See yellow as never before thanks to new color technology.** Industry-leading color science from HP uses a five-segment wheel versus the industry standard of four segments, making pastels purer, reds richer, and yellows brighter.
- **Leave your PC behind.** With the HP mp3135W digital projector, you can go from your office to the airport to a conference room with your projector in one hand and your presentation (stored on a USB Flash device or a CompactFlash memory card) in your pocket. Why weigh yourself down with extra equipment?

## Rugged, reliable, and wireless

- **Display Microsoft PowerPoint® files without the desktop application.** With direct PowerPoint, the projector directly renders PowerPoint files, bypassing conversion processes.
- **Travel light.** Save packing and presentation space with the HP mp3135 digital projector series. Starting at just 3.8 lbs, you'll even have room left in your briefcase for a newspaper and bagel.

## Sleek and easy

- **Make an immediate impression with this sleek, chic projector.** The projector's vertical design saves space and rises above obstructing coffee cups and table clutter, ensuring a stress-free setup.
- **Enjoy a seamless presentation.** Now there's no stopping to make awkward equipment corrections when you're in the middle of an important point. Before you begin, set the horizontal picture and you're done! The HP mp3135 digital projector series automatically adjusts the vertical for you. With automatic keystone correction, ensure that projected images are perfectly square and undistorted for flawless presentations audiences will remember.
- **Select the optimal setting with one button.** Whether you're giving a PowerPoint presentation with charts and graphs or running video, you need a clear, bright, crisp picture. The HP mp3135 digital projector series puts the choice at your fingertips. Image optimization lets you select the best quality, regardless of the type of presentation. If you prefer the flexibility of manually adjusting your projector, press either the theater button to optimize the picture for video input or the business graphics button to optimize the picture for data input.

<sup>1</sup> Wireless capability with the HP mp3135W digital projector or purchase of optional SAM (not included, sold separately).

<sup>2</sup> The ANSI (max.) lumens rating is based on ANSI/NAP IT7 .228-1997 tests of 26 units in August 2004 with a projector mean ANSI lumens of 1777 and maximum ANSI lumens of 2012. The ANSI (max.) lumens specifications are provided to enable customers to accurately compare HP digital projector's lumens with the lumen ratings of other vendors. Lamp brightness will decline with use. Replacing the used lamp with a new factory lamp will restore the projector's output to its original brightness range.

## HP mp3135W digital projector

### Product highlights

- **Focus on your ideas, not your equipment.** With the HP mp3135 digital projector and optional SAM, lighten your load by utilizing CompactFlash or a USB Flash memory device. Leave your notebook computer back at the office.
- **Survive the toughest business trip.** The projector is armored with a superior magnesium casing, and additional protection comes from the high-quality, form-fitting, and heavily padded carrying case.
- **Simplify your on-the-go lifestyle.** With the projector's easy setup, you'll be operating moments after entering any room, and with its 15-second shutdown, you'll be able to pack up in record time.
- **Get all the AV inputs you'll ever need.** With the projector's multiple inputs, you can create powerful, lively, and memorable presentations from a variety of source material. Connect computers, DVD players, video games, and more to the projector with VGA, composite, S-video, USB, and audio inputs.
- **Transform your communications with vibrant visual content.** The HP mp3135 digital projector series provides XGA native resolution that scales to accept data from VGA through SXGA+, ensuring crisp, sharp detail, whether you're projecting for a small, impromptu meeting or a large business conference.
- **Employ the industry standard in color accuracy.** Standard red-green-blue (sRGB) is an industry color standard originally developed by HP and Microsoft® as a common color language for monitors, input devices (scanners, digital cameras), and output devices (printers, plotters). Using a product developed by an industry leader in color innovation ensures consistent and accurate quality with other devices.
- **Benefit from HP's legendary quality and reliability.** The HP mp3135 digital projector is available with a standard one-year warranty (180 days for accessories, 90 days for lamp module). This exceptional warranty includes next-day express exchange and lifetime free phone support and 24 x 7 phone, e-mail, and HP Web support. We know you work late, and we will be there when you need us.

Experience unlimited opportunities with a high-quality digital projector that goes wherever you do. This mobile projector and optional SAM combine to give you freedom, flexibility, and superior image quality.
