

HP mp2210 digital projector

An intuitively designed mobile projector with best-in-class image quality.¹ No training required.

Quick setup and shutdown

- **Set up and shut down in seconds.** Easy to use, this lightweight, highly mobile projector lets you get started and pack up quickly. It is the perfect companion for professionals who demand quick and effortless operation.
- **Simplify your on-the-go lifestyle.** This grab-and-go projector weighs less than most notebook PCs and is smaller than a letter-sized piece of paper. The feather-light cables lighten the load whether you are moving from city-to-city or room-to-room. It includes a sleek protective sleeve, can be held in one hand, and slips easily into your backpack, purse, or briefcase.

Ultimate flexibility

- **Get all of the audio visual inputs you'll ever need.** From brief, impromptu sales talks to in-depth training sessions, this projector has flexible connectivity options to create powerful and lively presentations that include a variety of source material. Equipped with VGA, S-video, composite, and audio inputs, this versatile projector delivers top-caliber presentations from virtually any source, including PC, notebook, handheld, DVD, camcorder, VCR, and HDTV.
- **Enjoy the versatility.** With video compatibility, you are free to create dynamic, memorable presentations that clearly stand out. Plus, you can use it anywhere—your client's office, a conference room, or your family room.

One-touch adjustment

- **Experience the ultimate ease of use.** With just one touch, you can quickly and conveniently switch to Presentation or Video mode for the best image optimization—the projector automatically selects the best settings for custom graphics or video.
- **Stop searching for your equipment.** With a textured control panel, buttons that vary in size and shape, and a logical layout, you can operate the projector with your eyes closed. A distinctly different on/off button helps you avoid accidentally powering down. Everything about the projector is intuitive—from adjusting the projector legs to zooming in on an image.
- **Keep your focus on your audience.** Get excellent control over your presentation with an easy-to-use, credit card-sized remote control. Use the convenient Page-up and Page-down functions to quickly and easily navigate anywhere you want in your presentation.
- **Deliver a smooth, uninterrupted presentation.** Whether you're in a conference room or on the road and working in unfamiliar territory, you don't want to spend time adjusting your equipment. The projector comes with 1.15:1 integrated zoom so that you can adjust the image to fit your screen perfectly.

¹The HP mp2210 digital projector is a class sub-3 pound mobile projector. Based on a review of leading manufacturers' Web specifications in March 2005 that noted a combination of brightness (lumens), contrast ratio, and resolution.

Best-in-class image quality

- **Ensure a crystal-clear message.** With up to 1500 ANSI (max) lumens, razor-sharp 2200:1 contrast ratio, and XGA resolution (1024 x 768), this projector delivers clear, crisp data and vibrant graphics that your audience will remember.²
- **Dazzle your audience with colors that leap off the screen.** DLP™ technology leads the pack when it comes to quality and consistency on the screen. This proven digital technology provides crisp, grain-free images and consistent color year after year with no fading or loss of color fidelity.

A trustworthy companion

- **Count on solid, long-lasting performance.** The projector's 4,000-hour lamp life in economy mode (3,000-hour average lamp life) provides a solid product that won't surprise you with hidden replacement costs.
- **Depend on HP support.** HP's award-winning customer service and support backs its projectors with fast, knowledgeable online e-Support 24 hours-a-day, 7 days-a-week and easy-to-access phone support.

²The ANSI (max) lumens rating is based on ANSI/NAPM IT7 .228-1997 tests of 30 units in May, 2005 with a projector mean ANSI lumens of 1420 and maximum ANSI lumens of 1571. The ANSI (max) lumens specification is provided to enable customers to accurately compare HP digital projector lumens with the lumen ratings of other vendors. Lamp brightness will decline with use. Replacing the used lamp with a new factory lamp will restore the projector's output to its original brightness range.

Incredibly easy to use, this 2.4 lb projector sets up and shuts down in 15 seconds. Designed with mobility in mind, the HP mp2210 digital projector is a must for professionals on the move, allowing for presentation delivery without a hitch.

Sleek, high-tech design

- Make an immediate, positive impression.**
 Wow your audience before you ever begin your presentation when you pull out your HP notebook and matching projector for a meeting. Ideal for the image-conscious professional, the HP mp2210 digital projector has a stainless steel look and a smooth form factor. Its sleek design is consistent with the HP family of notebooks and projectors and complements any HP notebook for that got-it-all-together look.
- Survive the toughest business trip.** HP knows that your equipment takes a beating when you travel. The last thing you need is a broken projector just before your meeting begins. With lightweight magnesium alloy, the sturdy design offers added durability when traveling. And, its industrial design with rounded edges allows for easy packing and unpacking.

Maximize your presentations with versatile accessories from HP

HP leather carrying case

L1769A

This case projects a polished image and keeps your projector and accessories together and safe.

HP carry case

L2129A

Superior durability without the bulk, this easy-to-carry case makes transporting and organizing your HP digital projector and accessories a breeze.

HP deluxe combo case

L1622A

An economic and sturdy design allows you to take a notebook, projector, and even a mobile printer wherever you need to present.

HP wireless, smart remote control

L1586A

You're sure to present with confidence and ease with this HP remote control with simple controls and a laser pointer.

HP mobile 60-inch screen L1633A

HP presenter 50-inch screen L1671A

Give your audience the big picture whenever and wherever you want with a self-contained, easy-to-use mobile screen.

HP lamp module

L1809A

Be prepared for unexpected burnouts. Prevent distracting interruptions during your presentation with this back-up lamp module for your projector.
