

M8

Thin and Powerful

Thin and powerful

Over the years your notebook computer has slimmed down and become more functional. Now, thanks to the new ASX Proxima M8 slim projector, your laptop has a worthy travel companion. This extremely powerful, ultra-portable projector is the latest innovation from ASX Proxima with an industry-leading 2000 lumens and an 1800:1 contrast ratio, all in a unique briefcase-friendly design. At its core, the M8 incorporates the latest DLP® imaging chipset, which promotes breathtaking image clarity and longevity without any filters to clean – ever.

Flat-out impressive

Slip the M8 out of the included soft-case, lay it on the table and show off your brilliant presentation! Engineered with an extraordinarily adjustable 1.4x zoom lens, the M8 will create the perfect image at any size; from 15-300 inches! This remarkable flexibility allows each user to go from the smallest of meeting rooms to the largest. Relish the superb image quality of the M8's native XGA resolution, gone are the days of "downscaled resolution" as this new mobile projector keeps up with anything your laptop and mobile device display. Featuring a composite video input, VGA port, and component video with VGA adapter you can go from data source to video in a matter of seconds, all in high-resolution.

Cool & quiet

Every time you take the M8 out of your briefcase you'll amaze yourself and your audience. Utilizing a dual-chamber cooling system every image will be clear and free of distortion while the quiet-running high pressure fan will allow pictures to speak for themselves.

Get more out of your meeting with true digital video quality.

An ultra-slim 1.69" h profile is amazingly portable, especially in your briefcase.

TECHNICAL SPECIFICATIONS*
