Overview

Digital Projection International (DPI), Texas Instruments' first DLP™ partner and the original innovator of the 3-chip DLP™ projector, proudly introduces the newest of our compact 1080p Pro Series II Displays, the TITAN Pro 1080p-500, 600M, 700 and *Ultra Contrast*.

Weighing in at just 59.5 and 68 lbs., the twin-lamp TITAN 1080p-500 and dual lamp 1080p-600M, 700 and *Ultra Contrast* displays employ the latest in Texas Instruments' 1080p dark metal, 3-chip DLP™ technology to deliver up to 10,000 lumens and up to 5000:1 contrast. Compact, robustly built and ultra-quiet for their performance class, TITANs are unmatched solutions for staging, command and control, visualization, business, and educational venues. For staging, the TITAN can be ordered with DP's RapidRig flying and stacking frame, which provides integrated pitch, roll and yaw adjustments, simplifying installation and alignment accuracy.

Other key benefits of the TITAN 1080p line include:

- DP's *NextGen* electronics, featuring class leading de-interlacing with SD and HD sources processed using auto 3:2 and 2:2 extraction
- Minimal video delay from input to screen - as low as 1 frame, depending on source
- Sealed optics to protect DMD's and other focal plane components from airborne contaminants
- Seven user-selectable inputs, including HDCP compliant DVI plus SD/HD-SDI
- ColorMax calibration capabilities including enhanced seven-point color correction for broader color space and accurate color alignment
- User selectable Xenon-color mode processing, which enables the projector to closely replicate the spectral performance of a Xenon lamp
- Twin (1080p-500) or Dual (1080p-600M/700/*Ultra Contrast*) high intensity discharge lamps, which can be run individually or simultaneously, with a typical life of up to 2000 hours per lamp
- A range of precision optics with extended lens shift, compatible with all TITAN and LIGHTNING sx+ and 1080p models
- DP's CoolTek engineering, which delivers the highest lumen performance with the lowest thermal (BTU) and noise level (dB) output

The TITAN 1080p-500 and 1080p-600M, 700 and *Ultra Contrast* Pro Series II displays are priced and sized for every venue and everyday use - bringing the precision of Digital Projection to your venue.
