Full HD 1080p 2D/3D adventures at a remarkable value.

**Up to 3x Brighter Colors', and reliable performance** — 3LCD, 3-chip technology

**One measurement of brightness is not enough** — look for both high color brightness and high white brightness. The Home Cinema 2000 has:

- Color Brightness: 1800 lumens²
- White Brightness: 1800 lumens²

**High-definition, 1080p, widescreen performance** — for movies, games and more — up to 300" on virtually any wall or screen

**Exciting 2D and 3D adventures** — delivers eye-popping 3D entertainment at home with RF 3D glasses (sold separately)

**Versatile connectivity** — two HDMI ports, including one MHL, and more for all of your favorite HD devices
Full HD 1080p 2D/3D adventures at a remarkable value.

Enjoy Full HD 1080p cinematic adventures virtually anywhere in 2D or 3D with the Home Cinema 2000. Images are always rich and brilliant with 1800 lumens of color brightness and 1800 lumens of white brightness. Enjoy a blockbuster film with images up to 300" on virtually any wall or screen. Use the built-in sound or your own speakers. Setup is easy. The Home Cinema 2000 comes with two HDMI ports. And, MHL connectivity turns your projector into a smart display, providing instant access to movies, videos and games from MHL-enabled smartphones and tablets.

Up to 3x Brighter Colors with Epson

Brilliant image quality requires high color brightness (color light output), and Epson 3LCD projectors have up to 3x Brighter Colors than leading competitive projectors. One brightness measurement (lumens) is not enough. A projector’s specification needs to show both high color brightness and high white brightness. If color brightness is lower than white brightness, images may be dark, dull and lose detail. If not provided, be sure to ask for a projector’s color brightness specification.

3LCD — The #1 projection technology in the world

- All 3LCD projectors have both high color brightness and high white brightness
- All 3LCD projectors have 3 chips
- 25% lower power consumption for lower energy costs
- 20 years of road-tested reliability

Up to 3x Brighter Colors with Epson

EPSON

High color brightness and high white brightness

COMPETITOR

Color brightness significantly lower than white brightness

Actual photographs of projected images from an identical signal source. Price, resolution and white brightness are similar for both projectors (Epson 3LCD and 1-chip DLP competitor). Both projectors are set to their brightest mode.

The best-selling projectors in the world

Built with image quality and reliability in mind, Epson high-definition projectors take home theater entertainment to a whole new level, featuring color and detail that’s sure to win rave reviews from friends and family alike.
3D cinematic adventures at home

Enjoy 2D or thrilling 3D adventures right in the comfort of your living room. With RF 3D glasses (sold separately), the Home Cinema 2000 puts you right in the middle of the action.

Project on virtually any wall or screen

Turn your garage into a man cave, host exciting backyard movie nights, or enjoy the big game. Project up to 300" on virtually any wall or screen. Plus, you can install it on the ceiling for the perfect home theater experience.

Stress-free setup from Epson

Epson makes watching your favorite movie or sporting event or playing videogames on the big screen virtually effortless.

- **Easy image adjustments**
  Position your projector almost anywhere. Epson projectors automatically correct images vertically. And, for horizontal image correction, use the easy-slide control bar to make the necessary adjustments.

- **Built-in color modes**
  Choose from one of four special color modes optimized for different content and settings. Whether playing video games in the man cave or watching TV programs in the living room, you’ll get the best possible quality and color.

- **High-quality, HD video in a snap with two HDMI ports**
  HDMI connectivity makes it easy to use receivers, Blu-ray® players, game consoles, Apple® iPads, Apple TVs and more.

- **MHL — the latest in connectivity**
  Turn your projector into a smart display with instant access to movies, games and more:
  - Works with MHL-enabled smartphones and tablets
  - Use the projector remote to control MHL-enabled devices
  - Supports Full HD 1080p video and 7.1 audio
  - Simultaneously charge your MHL-enabled device when it's plugged into the projector

Additional Features/Benefits

- **Easily turn your projector into a smart display** — works with MHL-enabled smartphones, tablets and streaming devices — for instant access to movies, videogames and more

- **Built-in sound to enhance any movie** — for even more sound, add your own speakers; listen to audio, even when the projector is turned off

- **Larger-than-life photo slideshows** — PC-free with USB 2.0 connectivity

- **Amazing Full HD 1080p entertainment** — 1080p resolution ensures an amazing, larger-than-life HD experience, while high color brightness delivers bright, vibrant image quality — whether it’s a blockbuster movie, live sporting event or videogame.

Power Button Lock/Keycheck/Child Lock
Hinders projector from being turned on without parental supervision

What's in The Box
PowerLite Home Cinema 2000 projector, power cord, remote control with AA batteries, CD-ROM with users guide link

Optional Accessories

1. Compare to leading 1-chip DLP Home Entertainment Projectors. Epson 720p projectors are 3x Brighter; Epson 1080p projectors are consistently 2x and up to 5x Brighter. Based on NPD data, July 2011 through June 2012. Color brightness (color light output) measured in accordance with IDMS 15.4. Color brightness will vary depending on usage conditions.

2. Color brightness (color light output) and white brightness (white light output) will vary depending on usage conditions. Color light output measured in accordance with IDMS 15.4; white light output measured in accordance with ISO 21118.

3. Includes one Mobile High-Definition Link (MHL) HDMI port

4. Data source: ProjectorCentral.com Jan. 2013. Average of 1128 shipping models for which the manufacturers provided lumens and total power data, all resolutions and brightness levels. Energy efficiency was measured as wattage per lumen. It was measured for both 3LCD and 1-chip projectors in each of five brightness segments. 3LCD projectors averaged less required electricity per lumen in each of the five segments.

5. See our website for convenient and reasonable recycling options at www.epson.com/recycle

6. SmartWay, an innovative partnership of the U.S. Environmental Protection Agency that reduces greenhouse gases and other air pollutants and improves fuel efficiency.

7. Lamp life will vary depending upon mode selected, environmental conditions and usage. Lamp brightness decreases over time.
