Pro Cinema 4030 2D/3D 1080p 3LCD Projector

Elite 2D and 3D high-definition home cinema projector.

- **Up to 3x Brighter Colors**, and reliable performance — 3LCD, 3-chip technology
- **One measurement of brightness is not enough** — look for both high color brightness and high white brightness. The Pro Cinema 4030 has:
  - Color Brightness: 2000 lumens
  - White Brightness: 2000 lumens
- **Full HD 1080p, widescreen performance** — for movies, games and more — up to 300" on virtually any wall or screen
- **Stunning picture uniformity** — view images the way filmmakers intended with the state-of-the-art Fujinon® lens
- **Place the projector virtually anywhere** — 2.1x zoom and the widest horizontal lens shift available for greater flexibility
- **Stress-free setup** — built-in tools give you a perfectly aligned image in seconds
- **Exciting 2D/3D adventures** — eye-popping 3D entertainment at home with the included RF 3D glasses
- **Superior images** — up to 120,000:1 contrast ratio; plus, auto iris and Super-resolution technology
- **New Classic Black-and-White Cinema Mode** — ideal for rendering black-and-white hues as the original filmmakers intended
- **Versatile connectivity** — two HDMI ports, RS-232, and more, for all your favorite devices
- **Outstanding support** — three-year limited warranty; two-business-day replacement with free shipping
Elite 2D and 3D high-definition home cinema projector.
Transform any space into a true cinematic experience with the Pro Cinema 4030. Images are always rich and brilliant with 2000 lumens of color brightness and 2000 lumens of white brightness. View larger-than-life movies, sporting events and video games in 2D and 3D with Full HD 1080p performance. Stunning picture uniformity is yours with a state-of-the-art Fujinon lens. And, a suite of intuitive tools, including a 2.1x zoom and the widest lens shift available, ensures expert setup virtually anywhere in the room. The Pro Cinema 4030 even includes 2 pairs of RF 3D glasses. Cinematic perfection at home is finally yours.

Up to 3x Brighter Colors with Epson®
Brilliant image quality requires high color brightness (color light output), and Epson 3LCD projectors have up to 3x Brighter Colors than leading competitive projectors. One brightness measurement (lumens) is not enough. A projector’s specification needs to show both high color brightness and high white brightness. If color brightness is lower than white brightness, images may be dark, dull and lose detail. If not provided, be sure to ask for a projector’s color brightness specification.

3LCD — The #1 projection technology in the world
• All 3LCD projectors have both high color brightness and high white brightness
• All 3LCD projectors have 3 chips
• 25% lower power consumption for lower energy costs
• 20 years of road-tested reliability

State-of-the-art Fujinon lens
View images the way filmmakers intended them to be seen. This intricate lens offers excellent picture uniformity and clarity across the screen. And, it provides precision focus with a 2.1x zoom ratio.

The best-selling projectors in the world.
Built with image quality and reliability in mind, Epson high-definition projectors take home theater entertainment to a whole new level, featuring color and detail that’s sure to win rave reviews from friends and family alike.
**Full HD 1080p entertainment in 2D and 3D**

Full HD 1080p resolution ensures the ultimate home cinema, while high color brightness delivers vibrant image quality — whether it’s a blockbuster movie, live sporting event or videogame. With the included RF 3D glasses, the Pro Cinema 4030 puts you right in the middle of the action.

**Two rechargeable RF 3D glasses included**

Enjoy 3D adventures from any seat in the house. Line of sight is not required with the included RF 3D glasses. Rechargeable for up to 40 hours of battery life, these innovative glasses have a 3-minute quick-charge feature for up to 3 hours of battery life.

**Expert tools for more efficient setup**

Setup is virtually effortless with Epson’s unique suite of features. Spend less time getting ready and more time watching your favorite movie or sporting event, or playing video games on the big screen.

- **Intuitive image adjustments**
  Position your projector almost anywhere. Epson projectors automatically correct images vertically. Plus, with an unprecedented lens shift, it’s easier than ever to set up exactly where you want to.

- **Built-in color modes**
  Choose from various color modes (Dynamic, Living Room, Natural, Black-and-White Cinema, Cinema, 3D Dynamic and 3D Cinema) optimized for different content and settings. Whether playing video games in the man cave or watching TV programs in the living room, you’ll get the best possible quality and color.

- **Widescreen HD content from popular devices**
  Two HDMI ports easily accommodate receivers, Blu-ray® players, game consoles, Apple® iPad, Apple TV and more.

**Astounding clarity**

The Pro Cinema 4030 features:

- A contrast ratio up to 120,000:1
- Super-resolution technology (now in 2D and 3D)
  - Makes DVDs and standard and high-definition content come alive via its mixed color separation techniques and imaging simulation
  - Delivers crisp, clear images with super-high-quality resolution
  - Sharpens blurry images that have been enlarged by a general upscaling process
- Auto iris technology (for both 2D and 3D) — adjusts the aperture to provide the optimum contrast and brightness for each scene
