

Kodak

DP2900 Digital Projector

Outshine everyone

Look forward to making an impact. The incredibly small KODAK DP2900 packs a powerful punch, whether you have a large-group presentation or a one-on-one. With images that are brighter than ever, sharp detail and vividly true colours, it's more than a presentation tool. It's a partner that can help your business get a second look.

✓ Brilliantly Bright

With 1000 ANSI Lumens you can make sure you and your presentation will shine. In fact, you won't believe a projector this small could put out so much performance. It makes any presentation more impressive and memorable.

✓ Look Your Best

Sleek, stylish and contemporary, the KODAK DP2900 sets the tone before the presentation begins. Lightweight, yet rugged enough for business on the go, the KODAK DP2900 is the perfect compliment to today's powerful laptop and handheld computer technology.

✓ Exclusive KODAK Image Manager

For outstanding image quality and the best possible results, Kodak's Image Manager provides easy-to-use settings that enhance the colour, brightness and contrast of your images. With the touch of a button, you set the projector to best match your presentation for high quality graphics, crisp spreadsheets, rich colour charts and striking pictures every time.

✓ Kodak Quality and Reliability

You can count on Kodak for the very best in digital projectors that combine essential features, sturdy construction and reliability. Relax and rest assured your message will be delivered with ease and confidence. After all, with a trusted name like Kodak behind your presentation, success is always a sure thing.
