

Cineperm

Snap-On screen with aluminum frame.

The CINEPERM offers a contemporary, theatre-like appearance wherever a permanently mounted front or rear screen is required. Flexible viewing surface is stretched perfectly flat and snaps onto a 1" tubular aluminum frame. The viewing surface conceals the frame completely with 2" black leatherette borders on all sides. Pull handles at each corner of the surface help stretch the fabric during attachment, and can be removed after snapping surface onto frame.

Suitable for mounting to a wall, suspending from a ceiling, or "flying" for theatrical uses.

System Options

- **Viewing Surfaces**—M1300, M2500, HiDEF GREY or AT1200 for front projection, or CINEFLEX rear projection vinyl.
- **Standard Sizes**—Listed in the chart.
- **Custom Sizes**—We make virtually any size. Overall size, including frame, equals image area plus 4".
- **Truss Sizes**—Sizes larger than 10½' x 14' are manufactured with truss-style construction, using a 6" wide frame and borders.
- **Black Masking Borders**—standard for all formats.

*This size requires truss-style construction.

Lace & Grommet Screens

DRAPER LACE & GROMMET screens are furnished with 2" reinforced webbing on all four sides and grommets on 6" centers. Every LACE & GROMMET screen is custom built to your order—sizes up to 30' x 90'. Ideal for theatres, auditoriums, and stage events.

System Options

- **Viewing Surfaces**—For front projection, flexible matt white is the standard viewing surface. Fiberglass matt white, glass beaded, pearlescent, aluminumized, M1300, M2500 and HiDEF GREY are also available. For rear projection, choose CINEFLEX vinyl.
- **Frames**—Wood, aluminum or steel for wall or suspended mounting.
- **Surface Attachment**—Lacing cords, springs or shock cords may be used to attach surface to frame. Wraparound style frames are optionally available, as well as rigid masking systems.
